

Tunnels

Tunnels

weberad jet L	weberanc 405 BFX
Shotcrete accelerating admixture	Pure epoxy anchoring resin in cartridge
11	12
25 Kg	25 Kg
<ul style="list-style-type: none"> • Set Accelerator • Achieves low rebound • Gives high early and final strength 	<ul style="list-style-type: none"> • High bond strength • Long working time • Used in dry and wet concrete

weberep 360 FFR

Pre-mixed cementitious paste for fair-face repair

1

20 kg

- Can be covered with various coatings
- Fill pinholes up to 3 mm depth
- Fair-face homogeneous color

weberdry 150 BLC

Fast setting cementitious plugging mortar

2

1 or 5 or 20 or 25 kg

- Stops water leaks instantly
- Fast setting plugging mortar
- High pressure resistant

weberep 332 FR

Non-shrink thixotropic fine repair mortar with fiber

3

25 kg

- Fast-hardening
- Thixotropic
- High adhesion

weberep 331 TX

Non-shrink thixotropic repair mortar with fiber

4

25 or 50 kg

- Non-shrinking mortar
- Thixotropic
- High adhesion

weberdry 610 i

Foam forming water sealing injection resin

5

27.3 Kg

- Free expansion
- Penetrates deep in fine cracks
- Does not shrink after curing

webertec 304 VHS

Very high strength shrinkage compensated grout

6

25 or 50 Kg

- Precision grout
- Non-shrinking
- Very high-strength
- Easy to apply

weberep 370 PF

Two-component cement based corrosion protection and bonding agent

7

4 kg

- Easy to apply by brush
- Durable protection of rebars
- Highly impermeable to water

webertec 301

Non shrink mortar for concrete structure repairs

8

25 or 50 Kg

- Excellent adhesion
- Non-shrinking
- High-strength
- Highly fluid

webercote beton

Protective decorative anti-carbonation treatment for concrete

9

14 lit

- Protects substrates form Carbonation
- Excellent weathering resistance
- Easy to clean

webertec epo 430 GRT-Plus

Three-component epoxy self-leveling grout

10

17.8 kg

- Resistant to heavy mechanical stress
- Self-levelling properties
- Highly chemical resistant

1	weberep 360 FFR	Fill pinholes and smoothen surface
2	weberdry 150 BLC	Stop a leakage
3	weberep 332 FR	Repair a concrete spall with a thin layer
4	weberep 331 TX	Repair a concrete spall with apparent steel
5	weberdry 610 i	Fill up a crack in presence of water
6	webertec 304 VHS	Assemble prefabricated elements
7	weberep 370 PF	Protect reinforcing bars against corrosion
8	webertec 301	Undertake a wide repair with reinforcements
9	webercote beton	Protect concrete against carbonation
10	webertec epo 430 GRT-Plus	Grout rail pads
11	weberad jet L	Spray shotcrete for lining or backfilling
12	weberanc 405 BFX	Fix reinforcing bars before repairing

Roads & Sewerage

weberdry 110 FX	weberdry 610 i	weberdry tar ESB	weber seal PS 1000 GG/PG
Flexible high-performance cement-based waterproof coating	Foam forming water sealing injection resin	High build solvent-based coal tar epoxy coating	Two-component polysulphide joint sealant
 15 Kg	 27.3 Kg	 25 Kg	 25 Kg
<ul style="list-style-type: none"> Highly flexible Used for positive and negative hydrostatic pressures Easy to apply 	<ul style="list-style-type: none"> Free expansion Penetrates deep in fine cracks Does not shrink after curing 	<ul style="list-style-type: none"> Anti-corrosion Excellent chemical resistance 	<ul style="list-style-type: none"> Highly flexible Excellent adhesion properties Chemical resistant

• Highly flexible
• Used for positive and negative hydrostatic pressures
• Easy to apply

• Free expansion
• Penetrates deep in fine cracks
• Does not shrink after curing

• Anti-corrosion
• Excellent chemical resistance

• Highly flexible
• Excellent adhesion properties
• Chemical resistant

weberep 314 RD

Highly early strength and fast setting filling mortar with fiber

25 kg

- Low shrinking
- High early strength
- Fast setting

webertec 301

Non shrink mortar for concrete structure repairs

25 or 50 kg

- High strength
- Easy to apply
- Non-shrinking
- Liquid or plastic consistency

weberep 350 NSG

Non shrink mortar for repair and grouting

25 kg

- High early strength development
- Avoids corrosion and stops rust

weberep 332 FR

Non-shrink thixotropic fine repair mortar with fiber

25 kg

- Fast-hardening
- Thixotropic
- High adhesion

weberep 331 TX

Non-shrink thixotropic repair mortar with fiber

25 or 50 kg

- Non-shrinking mortar
- Thixotropic
- High adhesion

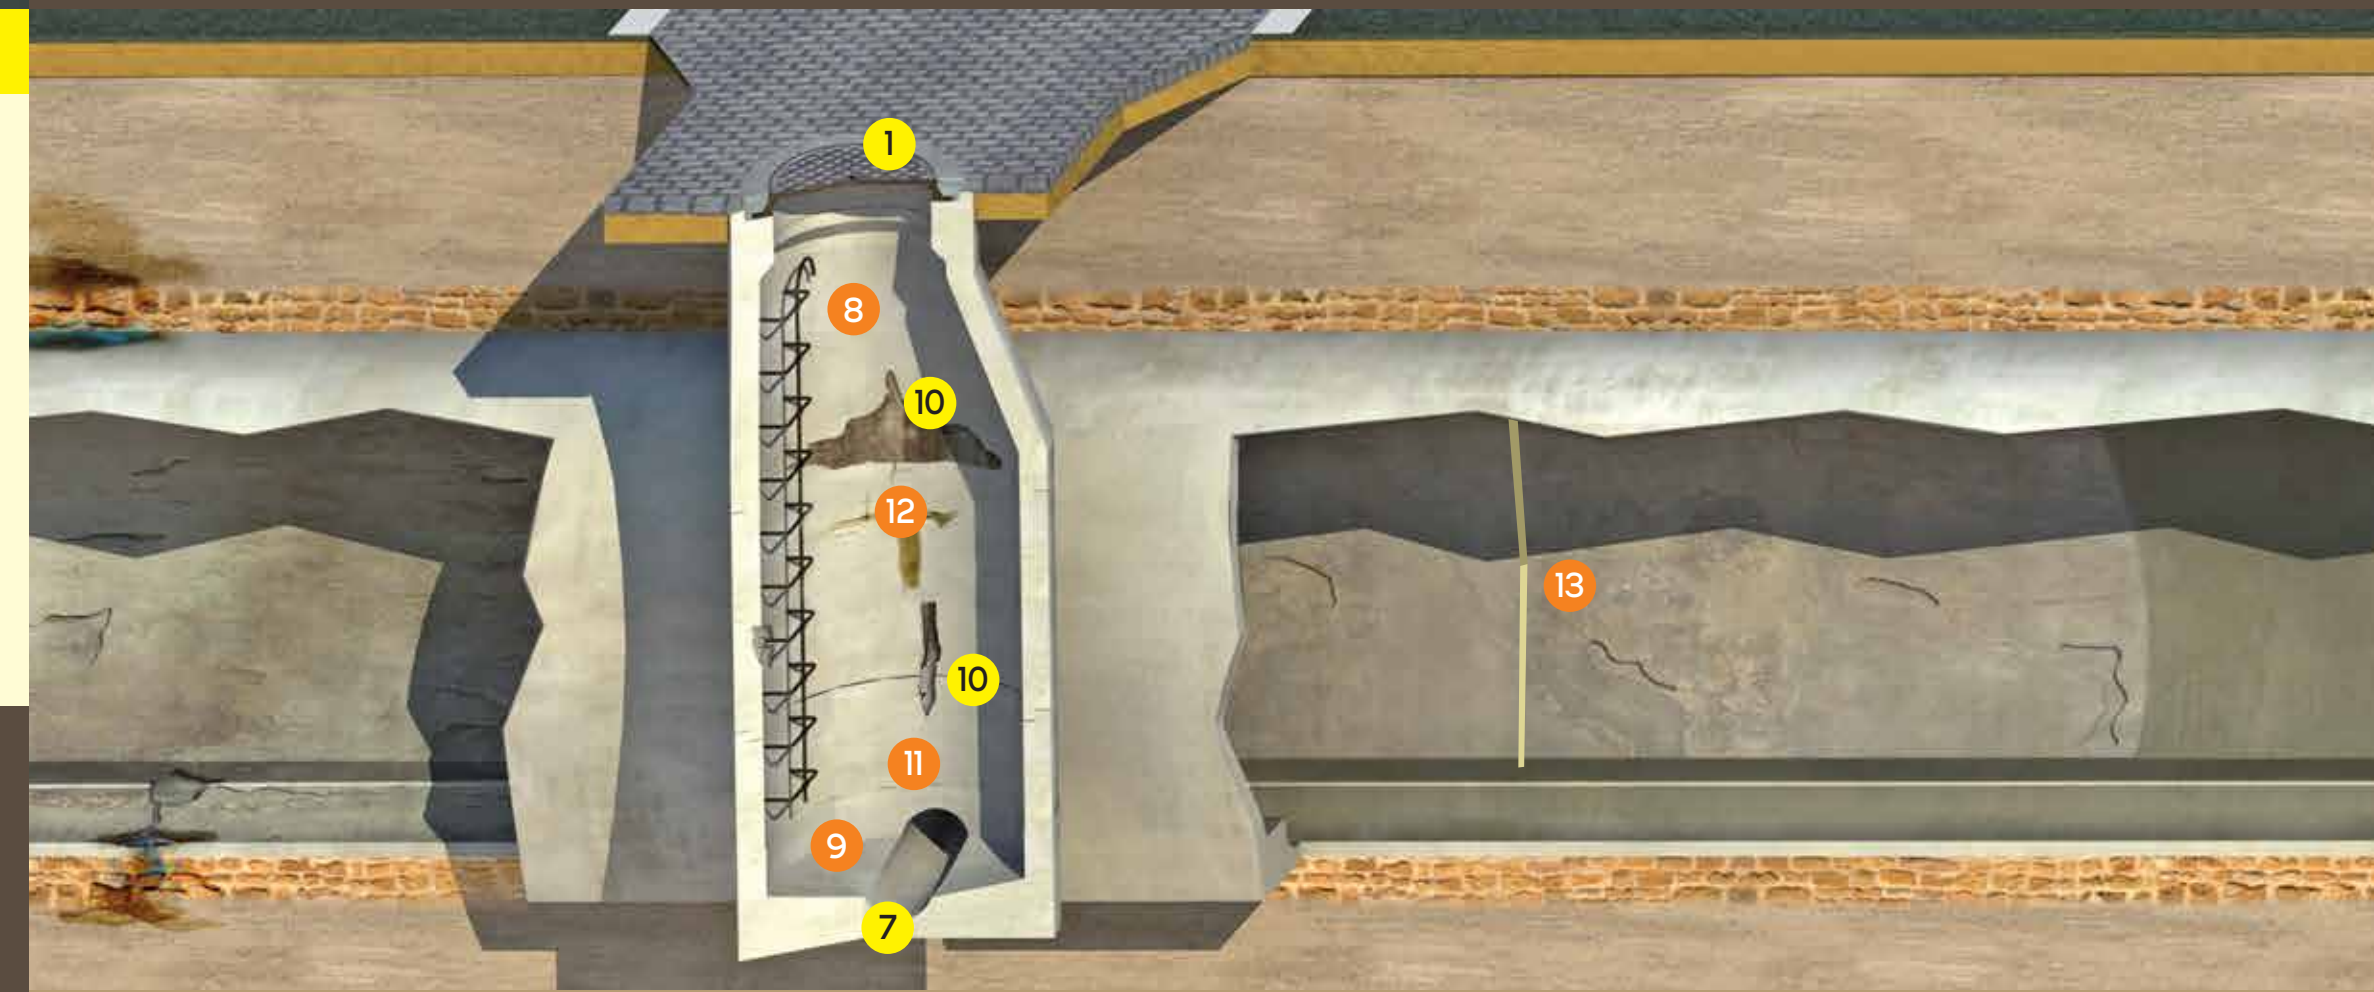

webertec 304 VHS

Very high strength shrinkage compensated grout

25 or 50 Kg

- Precision grout
- Non-shrinking
- Very high-strength
- Easy to apply

1	weberep 314 RD	Embed manhole covers or repair manhole frames Repair a water supply lining
2	webertec 301	Grout street furniture (bench, bus stop...)
3	weberep 350 NSG	Assemble border stones
4	weberep 332 FR	Repair concrete elements with thin layer
5	weberep 331 TX	Repair concrete elements with medium layer Make an impermeability angle fillet
6	webertec 304 VHS	Grout baseplates and threaded rods
7	weberdry 110 FX	Waterproof a manhole
8	weberdry tar ESB	Protect an immersed area against corrosion
9	weberdry 610 i	Stop a leaking crack
10	weber seal PS 1000 GG/PG	Seal an expansion joint
